Software Engineer with 3+ years of experience developing full-stack web applications and API integrations. Strong background in Python, Java, JavaScript, TypeScript, SQL, React, and Angular. Experienced in customer-facing engineering and production support.

Experience

Software Engineer
Gurucul ▪ El Segundo, CA
January 2023 - Present

- Built and maintained responsive UI components using Angular and TypeScript, improving usability and ensuring a consistent user experience across the application.
- Developed and implemented 80+ API-based integration connectors in Java to collect, aggregate, and normalize data from external systems for POC/POV and production use cases.
- Engineered and deployed internal tooling to automate health checks across Linux-based servers and virtualized environments, supporting testing and POC/POV demonstrations.
- Delivered and supported a SaaS security data analytics platform for customers, enabling customer data onboarding and ingestion.
- Troubleshot customer production environments across application, backend, integration, and infrastructure issues, identifying and resolving root causes.

DevOps Engineer
November 2022 - January 2023

- Supported data migration and development of an online library catalog system as part of a DevOps team for Saddleback Church Hong Kong.

Projects

URL Scan Lite
JavaScript, TypeScript, React, HTML, CSS

- Designed and developed a minimalist web application for scanning and analyzing URLs using the urlscan.io API, with a custom frontend redesigned to provide a cleaner and more intuitive user experience.

Abuse.ch CLI
Python

- Built a Python command-line tool that cross-queries URLhaus, ThreatFox, and MalwareBazaar APIs to identify malicious URLs, file hashes, and indicators of compromise (IOCs).

Skills

Programming Languages
Python, Java, JavaScript, TypeScript, SQL, Bash, HTML, CSS

Technologies & Tools
React, Angular, Node.js, Next.js, REST APIs, MySQL, PostgreSQL, Linux, Git, Cursor

Education

B.S. in Computer Science ▪ University of California, Irvine ▪ Irvine, CA
Specialization in Visual Computing
